Your partner for scientific & life-science consumables.

At TheAccura Scientific LLP, our objective is to provide laboratories and scientific organizations with reliable, cost-effective and quality-focused consumable solutions. Our approach is based on understanding the technical requirements of our customers and sourcing products from reliable manufacturers and qualified suppliers.

Our Vision

To become a trusted scientific consumables partner for laboratories, pharmaceutical, biotechnology, healthcare and research organizations.

Our Mission

To provide quality products, competitive pricing, reliable supply and responsive technical support to our customers.

We aim to develop long-term relationships with customers, manufacturers, distributors and technology partners across India and international markets.

Three verticals. One standard of quality.

- Sterile options available

Research • Pharmaceutical • Biotechnology • Diagnostics • Academic • QC

More than a product — a dependable supply chain.

01 **Quality Focused**

Products with defined technical specifications and appropriate quality documentation.

02 **Competitive Pricing**

Sourcing strategy built for routine and high-volume laboratory requirements.

03 **Reliable Supply**

Established manufacturing and supply partners for dependable supply channels.

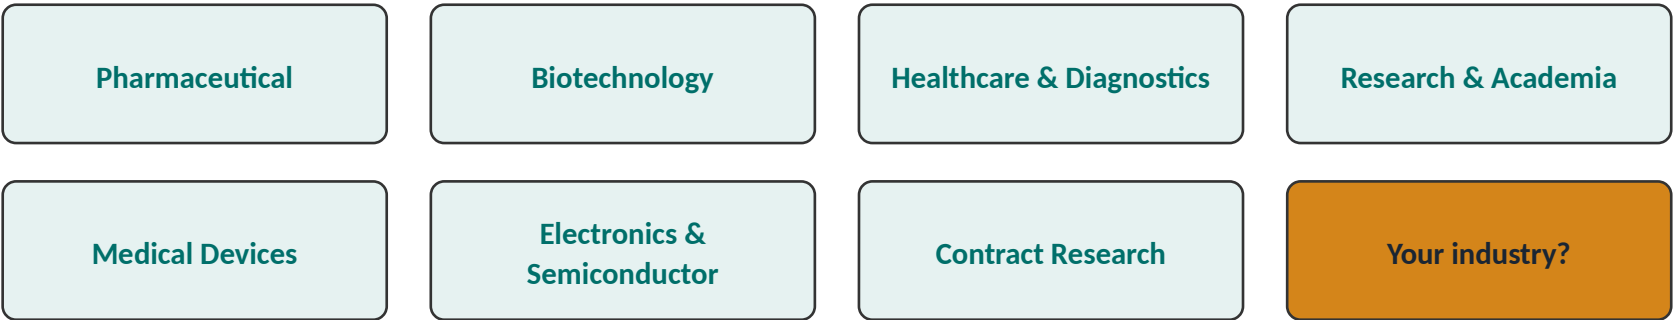

04 **Customer-Focused**

Consistent quality, availability and responsive support — not just a product.

TECHNICAL DOCUMENTATION WITH EVERY PRODUCT, WHERE APPLICABLE

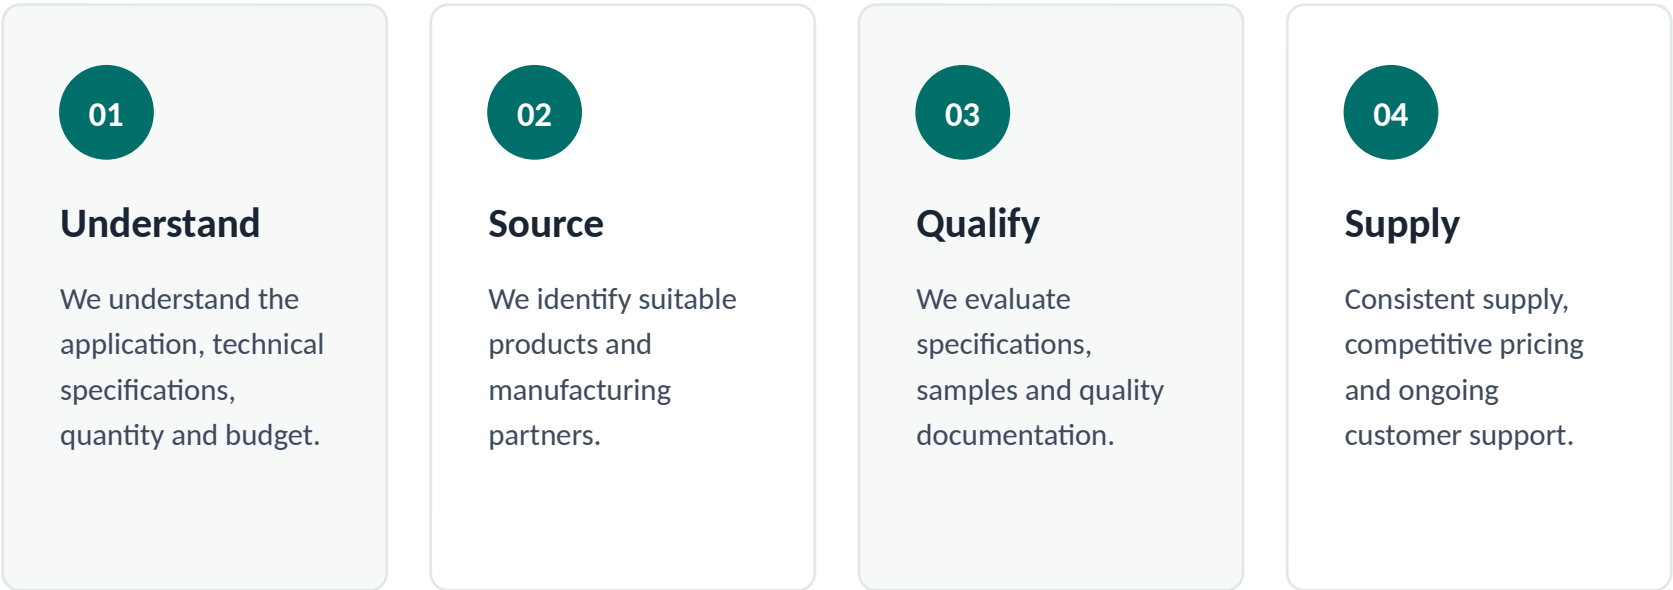

COA • TDS • MSDS/SDS • Product Specifications • Quality Certificates • Sterilization Documentation • Lot Information

Wherever precision is non-negotiable.

HOW WE WORK

Understand → Source → Qualify → Supply

Let's talk consumables.
